

Sinclair Broadcasting's is forcing their affiliate stations to air politically motivated anti-Kerry documentary. This is clearly political motivated and violates the letter and spirit of laws calling for equal and unbiased coverage during elections. This is a fundamental violation of the American democratic system. The FCC should either prohibit Sinclair from doing this, or require them to show an anti-Bush documentary.

Should the FCC not act, this would be a dangerous signal of unwillingness of the FCC to play its legal role in protecting American democracy and the interests of US citizens.

Please take appropriate action now! Thank you.
